Chapter 332: The Eternal Guardians

Sung Jin-Woo's vision for a united multiverse necessitated a network of ultimate protectors. Thus, he embarked on his next great creation: the Eternal Guardians, beings of unparalleled power and loyalty, designed to defend the realms against any threat.

The Creation of the Eternal Guardians

Using the Spiral Nexus as a forge, Sung Jin-Woo channeled his divine energy into shaping these beings. Each Eternal Guardian was imbued with a fragment of his essence, granting them immeasurable strength, wisdom, and resilience.

The Eternal Guardians:

1. Primarch of Light:

Embodies the brilliance of creation, capable of purging darkness and chaos.

Wields the Lance of Radiance, a weapon that can pierce any barrier.

2. Abyssal Colossus:

Represents the strength of the shadows, a towering figure of impenetrable might.

Equipped with the Shield of the Void, capable of absorbing any attack.

3. Celestial Arbiter:

Balances light and shadow, ensuring justice and harmony across the realms.

Uses the Scales of Eternity, which can measure and adjust the balance of power.

4. Guardian of Life:

Protects all living beings and the sanctity of life.

Carries the Staff of Rebirth, which can restore life to even the most devastated realms.

5. Warden of the Nexus:

Defends the Spiral Nexus and maintains its operations.

Controls the Orb of Control, ensuring the Nexus remains unbreachable.

Deploying the Guardians

Sung Jin-Woo stationed the Eternal Guardians strategically across the multiverse:

The Primarch of Light was assigned to the Realm of Eternal Light to protect its brilliance.

The Abyssal Colossus guarded the Shadowverse, serving as the first line of defense.

The Celestial Arbiter resided in the Temporal Abyss, mediating conflicts among realms.

The Guardian of Life watched over Luminara Grove, ensuring the survival of flora and fauna.

The Warden of the Nexus remained in the Spiral Nexus, the heart of creation.

Empowering the Multiverse

To further strengthen the multiverse, Sung Jin-Woo initiated a project to empower his creations and followers.

The Ascension Program:

1. Divine Trials:

Created realms where individuals could test their strength and ascend to higher levels of power.

These trials included combat challenges, puzzles, and survival tests.

2. Blessings of the Triad:

Bestowed unique blessings upon those who proved their worth in the trials.

Blessings enhanced physical and mystical abilities, ensuring they could face any threat.

3. Divine Academies:

Established institutions across realms to teach mana manipulation, battle aura, and divine arts.

Open to all races, fostering unity and shared knowledge.

A Gathering of the Divine

The Twelve Divine Beings convened in the Absolute Castle to discuss the progress of the multiverse.

Sung Su-Ho spoke first:
“The Eternal Guardians are a masterpiece, Father. They are a testament to your unparalleled vision.”

Ashborn added:
“The multiverse flourishes under your guidance. The Divine Triad’s influence has brought peace and prosperity to countless realms.”

Sung Jin-Woo nodded, his expression resolute.
“This is only the beginning. The multiverse will not only survive but thrive. Our purpose is clear: to ensure that no force, internal or external, can threaten this harmony.”

A New Era Dawns

With the Eternal Guardians in place and the Ascension Program underway, Sung Jin-Woo's vision of a united and empowered multiverse came closer to fruition. His divine power resonated through every corner of existence, a beacon of hope and strength for all who followed him.

The multiverse entered a new era, one of unity, prosperity, and eternal vigilance, under the watchful gaze of the Absolute One.
